

# Holiday Paper Wreath Craft

Print out the next two pages on colored cardstock,  
then follow the directions below to create your wreath!

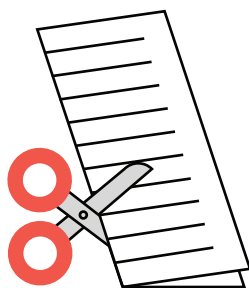

## INSTRUCTIONS

1

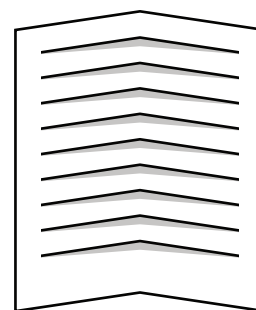

Fold the paper in half  
along the solid line.

2

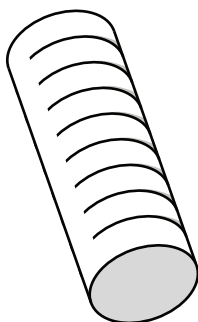

Cut along the horizontal  
dotted lines. Do not cut  
right to the edge.

3

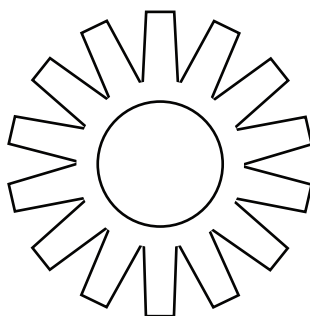

Make sure all lines are  
cut and open the  
paper back up.

4

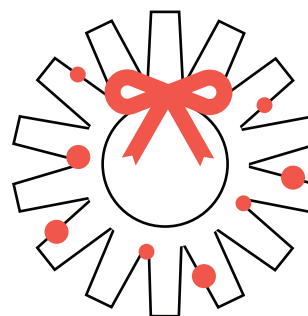

Roll it backward from the  
crease so it forms a tube  
and staple together.

5

Staple the two ends of  
the tube together so it  
forms a wreath.

6

Glue on decorations  
and add to your  
festive decor.

# Wreath Decorations

Cut out these decorations on colored paper or color them in, and then glue them to your paper wreath.
